KOREAN PATENT ABSTRACTS

(54) DEVICE AND METHOD FOR CONVERTING MARKUP LANGUAGE USING CACHING FUNCTION

(57) Abstract:

PURPOSE: A device and method for converting a markup language using a caching function are provided for enhancing a web page conversion efficiency, performance, conversion time and process result.
CONSTITUTION: A transmission management unit(10) of a proxy management unit(30) recognizes a network transmission environment of a terminal which requests a current page, selects the content of a page which must be deleted and uses an image having a decreased resolution in case of the image. The transmission management unit(10) removes when a java script is not supported by a corresponding terminal and selects an available element provided from the document converter(24) of the content conversion management unit(20).
